Imagine how awesome it would be to work in one of these amazing offices! I love the tree top house one. I'm sure that the people working in these offices love going to work, I know I would! I wonder how long it took them to come up with these ideas. I found an article about the process of office design that I hope you don't mind me sharing. It's worth a read - http://paramountinteriors.com/blog/the-paramount-process-office-design
